Dear Mr. McAllister,

This letter is in response to the FEC inquiry dated December 12, 2012.

All independent expenditures made by the committee were reported on a 24/48 Hour Notice of Independent Expenditures.

The independent expenditure that aired on October 3, 2012 in support of Shmuley Boteach was reported to the FEC on October 5, 2012 via facsimile. A time-stamped copy of the faxed report is currently available on the FEC website as a miscellaneous document confirming timely receipt of the filing. On the afternoon of October 12, the FEC contacted the committee and asked that the report be filed electronically, which the committee completed that afternoon.

The independent expenditure that aired on October 5, 2012 in support of Joseph Kyrillos was reported to the FEC on October 11, 2012 via electronic filing. The delay in filing this report was due to a miscommunication on the date the independent expenditure began airing. The committee recognized this oversight on October 11, 2012 and immediately filed a 24/48 Hour Notice of Independent Expenditures.

In both cases, the committee responded as soon as it became aware of the filing issues. As a new committee formed in mid 2012, we ask the FEC to excuse these filing issues as beginning errors and recognize that the committee filed all its other reports timely and in complete compliance with FEC regulations.

If you desire any additional information, please feel free to contact me via telephone, email, or mail.

Sincerely,

David Satterfield
